

MULTIPHASE FLOW MEASUREMENT SERVICES

SURPETROL is the world leader in providing well test services with permanent or mobile multiphase flow meters.

SURPETROL focus on delivering well testing services with high quality standard using multiphase flow meters with cutting-edge technology and high-level developments.

Why work with Surpetrol?

- **Operational Leader**

More than **250k successful** production well tests operations with Multiphase Flow Meters (onshore and offshore oilfields).

- **Expertise**

Operational and Technical support staff with more than **15 years** of experience in Multiphase Flow Measurement using Data Analytics & Artificial Intelligence approaches.

- **Precision**

Multiphase flow meters in **compliance** with the industry requirements.

- **Development and Evolution**

Continuous improvement and implementation of new techniques to optimize/strengthen the measurement process.

- **Optimization**

Constant support in well **productivity** evaluation.

- **Operational Flexibility**

Multiphase flow measuring under a wide variety of operational conditions and fluid types.

- **Real Time Data Transmission**

Continuous Evaluation in real time of the well behavior.

- **Simulation and Data Analysis**

Alerts for production changes and bottlenecks.

- **Health, Safety, Environment and Quality**

Surpetrol has an Integral Management System, certified in ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018.

MULTIPHASE FLOW MEASUREMENT SERVICES

Operational and Technical
support workforce with more
than 15 years of experience in
Multiphase Flow Measurement.

Our Staff has performed more than 250,000 well test services, allowing our customers to efficiently manage reservoir production and optimizing the oil and gas fields.
